

STATIC DISSIPATIVE LAMINATING SHEETS

All-Spec's ESD-safe laminating sheets will work with any standard document laminating system which can be found at Office Max, Staples or at any office supply store.

INSTRUCTIONS: Take a non-ESD-safe document and place between 10⁹ ohms/sq sheets. Laminate them together through a heat sealer. You now have a laminated static dissipative document holder that's safe for ESD sensitive areas.

STATIC DISSIPATIVE LAMINATING SHEETS AVAILABLE IN:

Part Number: [LS8511D](#) - 8 ½" x 11", 25 per pack

Part Number: [LS1217D](#) - 12 ¼" x 17", 25 per pack

Construction

Ingredients	Contents
PET	95%
EVA	5%

Physical Property

Description	Specifications
Thickness	80 micron
Grammage	95 gram/m2
Elongation	MD 161% TD 120

Electrical Property

Outer Surface Resistivity: < 10⁹ ohms/sq
Static Decay: < 2 seconds
Part Numbers: [LS8511D](#)
[LS1217D](#)
UOM / Quantity: 1 pack (25 sheets)

The values show above were taken from random samples of material we believe to be typical for the product; however, actual values may vary somewhat from those listed above. All-Spec Industries makes no warranty, express or implied, as to the suitability of these materials for any specific use. Customers should determine product suitability based upon their own initial criteria and testing.
