

ATT-20 dB Attenuator

SKU: ATT-20DB

Description

Description

Attenuation value: 20 dB

Impedance: 50 Ohms

Frequency: DC – 4 GHz

Power rating: 1 watt

VSWR: ≤ 1.2

Can be used as external over- input level protection for the SSA3000X spectrum analyzers (Requires N(m) to BNC(f) adapter or coax cable). Also used to decrease the output voltage level from a SDG function generator.
