

Top GunTM

IONIZING AIR GUN

The Top Gun is a high-performance ionizing air gun designed for a wide variety of industrial applications. Featuring high blow-off force and low air consumption, the Top Gun provides high efficiency cleaning and maximum static charge neutralization.

- Filter ensures clean air at the target surface
- Lightweight, ergonomic design for user comfort
- Flow control valve adjusts air flow level for each application
- Ionization indicator light verifies that ionization is present
- Sidekick available for hands free operation

Specifications

Weight	Gun 6.5 oz (185g) Cable 1.25 oz /ft. (115 g/m) Power Unit 6.0 lbs (2.7 kg)
Inlet Pressure	100 psi clean (max); dry compressed air (CDA) or nitrogen
Air Flow	2.4 scfm @ 30 psi (68 lpm, 2 bar) 4.6 scfm @ 60 psi (130 lpm, 4 bar) 7.4 scfm @ 100 psi (210 lpm, 7 bar)
Discharge	1.3 sec @ 6" (15.2 cm), 30 psi (±1000-100V) 0.5 sec @ 2" (5 cm), 60 psi (±1000-100V)
Emitter	Special alloy
Cable	10' standard length, 20' optional
Approval	CE, TUV Rheinland, KCC, RoHS

Dimensions

Top Gun Ionizing Gun

The gun body is lightweight but durable, and features a light-touch trigger, making it comfortable for extended use. All functionality is built into the gun, including a flow control valve, a balance adjustment for calibration, and a two level LED which indicates both power and ionization. Both the gun and cable are static dissipative. A hanger is provided for easy mounting.

Ionizing Thermoformed Trays

Top Gun Sidekick

- The sidekick's flexible neck feature frees the operator's hands during assembly and manufacturing processes. The flexible gun mount allows the operator to focus the ionized airflow where it is needed
- A foot pedal controls both ionization and airflow, which reduces compressed air costs and extends the life of the ionizer
- The stand includes a steel bracket for easy benchtop mounting

The sidekick includes:

- Top Gun Ionizing Air Gun
- 18" Flexible Hose
- Foot Pedal
- Mounting Bracket
