## 226400 E

### Manual oil injector

The 226400 E is suitable for many applications, for pressures up to 300 MPa/43,500 psi, using the SKF Oil Injection Method. The injector is supplied with an oil reservoir in a compact carrying case. The injector can be mounted directly onto the work piece or connected to a SKF Adapter Block 226402 to make a floor standing model, making it easy to connect pressure gauges and high-pressure pipes. Typical mounting and dismounting applications, Bearings, Couplings, Railway wheels, Gear wheels, Flywheels, SKF OK Couplings

- Easy to operate
- Compact carrying case
- When the pressure is released, the unused oil is automatically returned to the reservoir, minimizing the risk of oil leakage to the environment
- Oil container capacity 200 cm<sup>3</sup> (12.2 in<sup>3</sup>)
- Can be used with a wide range of accessories, such as: SKF Adapter block, SKF Pressure gauges, SKF High pressure pipes and SKF Connecting nipples
