

ELECTRIC TORQUE SCREWDRIVER INDUSTRIAL STRENGTH

ISO 9001

Certificate TW04/02301

SUMAKE®

MAKE JOBS BETTER THAN EVER

CE

Presentation

SUMAKE specializes in the design and manufacture of electric torque screwdrivers which are widely used in assembly applications. Our electric torque screwdriver features excellent torque control to ensure accuracy in fastening and an ergonomic designs featuring an anti-slip exterior that ensure comfortable operation. Our motor and clutch combination offer high accuracy, wide torque ranges, low noise, high efficiency, and much more. We are equipped with modern facilities using, strict quality control systems to ensure each electric screwdriver is fully satisfactory to our customers. In addition, the know how of our R&D team makes sure that our customers are provided with the latest innovations in light torque solutions.

With both experience and innovation, we are confident that we are providing users of **SUMAKE** Electric Screwdrivers the highest quality in the market.

SUMAKE's manufacturing process conforms to the ISO9001 standards. **SUMAKE** product quality is certified daily by an increasing number of satisfied customers all over the world who choose **SUMAKE** electric screwdrivers because they are reliable and accurate, safe and pollution free, quiet and powerful, innovative and built to last. We run a efficient well organized computerized Q.C. systems that ensure we meet quality, packaging and delivery benchmarks. **SUMAKE** quality will help you stay ahead of the competition.

Additionally, our Premium Brushless Electric Screwdrivers include a state of the art high performance brushless motor designed to provide durability and a reduction in standard maintenance costs. Brushless motors run significantly cleaner and smoother than standard brushed motors.

Why use Brushless over Brushed Motors:

- Wider Torque & RPM Range: Brushless motors obtain higher speeds and torques than traditional brushed motors.
- Higher Duty cycles: Brushless motors have a lower thermal resistance and are capable of operating in wider temperature ranges.
- Cleaner & Safer: No brushes mean less maintenance and no brush residue contaminating the internal parts of the screwdriver or the work environment. There is none of the arcing associated with traditional brushed motors making brushless motor screwdrivers safer in a wider working environments. Brushless DC motors are also safer when in contact with fluids than brush DC motors.
- Quieter: Since there is no brush arcing or brush commutation, brushless motors are much quieter and run smoother.
- Smaller and lighter: Because they have lower thermal resistance, are capable of operating in wider temperature ranges, have higher torque to inertia ratios, and have greater acceleration, smaller brushless DC motors can do the same job for which their much larger counterparts would otherwise be used. This results in an overall cost savings.

Our goal is to offer our customers a complete line of torque control products and fastening tools, while providing world-class service and support.

SUMAKE, your partner in business!

PREMIUM BRUSHLESS FULL AUTO SHUT OFF DC ELECTRIC SCREWDRIVERS

CE=W/CE Certificate & ESD Housing. Example: For Tool W/ESD Model no. is EA-BNXXX/CE6

EA-BN203 - 210 screwdrivers come standard with bit type B HEX 6.35mm, EA-B101 - 103 screwdrivers come with bit type C Ø4mm

Note1: Must be ordered with a power supply from page 11. Note2: Color chart is used to match up screwdrivers with power supplies.

PREMIUM BRUSHLESS DC SCREWDRIVERS

Low To Medium Torque With Full Auto Shut Off Clutches

■ Torque Range 0.15~4.90 N.m

Feature

- Innovative Brushless motor design eliminates carbon dust and reduces noise and vibration resulting in lower maintenance.
- Brushless motors allow us to build smaller screwdrivers that weigh less, run smoother, reach higher torques, and feel ergonomically comfortable to the user.
- Can be used assemble Watch, Laptop, Digital Camera, DVD player, Cell Phone, High tech Products.
- Precise repeatable torque.
- Highly mobile, easy to operate, high efficiency brushless motor reduces fatigue over long working hours.
- Speed control can be adjusted via power supply.
- Optional ESD safe housings are available.

PREMIUM BRUSHLESS TORQUE SCREWDRIVERS

Made For Automation Assembly Applications

Full auto shut-off screwdrivers built to be easily integrated into automated assembly applications.

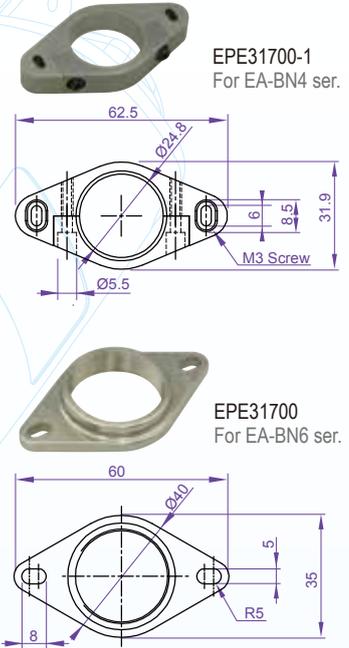

Features:

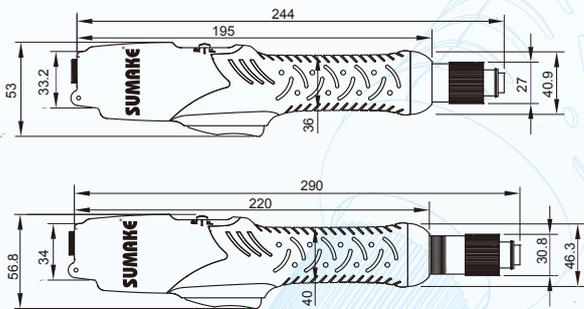

- Torque Ranges: 0.15 ~ 4.9 Nm.
- Screwdrivers built to work with our Flange Mounting Plates.
- Use with or signal controls (EAA-SCBSN6) to turn screwdriver on/off.

Flange mounting plate
Material: Stainless Steel

Note 1: Must be ordered with a power supply from page 11. Note 2: Color chart is used to match up screwdrivers with power supplies.

PREMIUM BRUSHLESS DC ELECTRIC SCREWDRIVER

Vacuum Pickup With Full Auto Shut-off Clutch

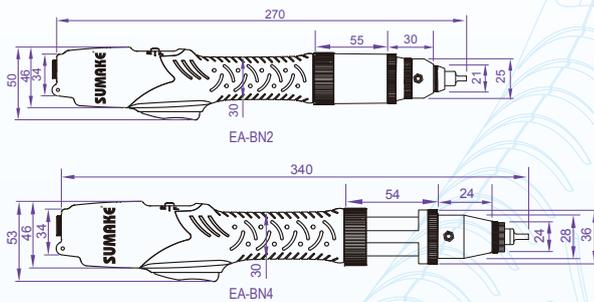

Features:

- Works with EA-BN203 ~ EA-BN419, EA-BD2 ~ EA-BD4 brushless series screwdriver.
- Ideal for non-magnetic screws for example plastic, aluminum, and stainless steel screws.
- Match Screw size to vacuum pick-up adaptor.
- Works on screw head diameters between 3.2 ~ 7.5 mm.

Quick Installed:

External Dimension unit:mm

Suction Head Sizes:

Suction Head Model (d2)	Nosepiece	Suitable Model	Bit Type
		 	B HEX 6.35
			C Ø4mm
		 	B HEX 6.35
			C Ø4mm
			D Ø5mm

- ★ Bits standard : B type HEX 6.35mm
- ★ Option : C type Ø4mm - EA-BN203L-C/C6 ;
D type Ø5mm - EA-BN412L-D/C6

To Order:

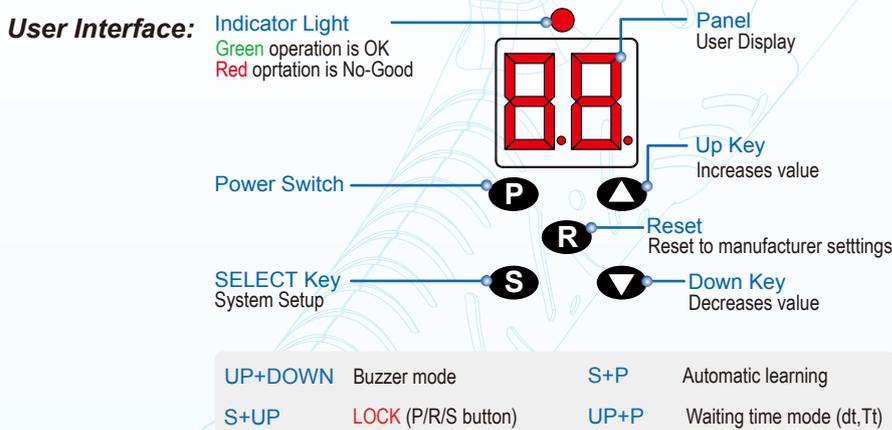

- 1) Determine Screwdriver (pages 1, 2, 10).
- 2) Determine Nosepiece by screw sizes.
- 3) Determine Suction Head by screwdriver size and nosepiece size.
- 4) Order all parts Screwdriver, Suction Head, Nosepiece, Power Supply, and Vacuum Pump.

PREMIUM BRUSHLESS COUNTER DC Full Auto Electric Screwdriver

Feature

- Innovative Brushless motor design eliminates carbon dust and produces less vibration and noise which results in overall lower maintenance costs.
- Torque ranges from 0.02 ~ 4.9 Nm.
- Compact LED counter display and control unit: easy to setup and operate, provides the same functionality as our traditional power supply counter units
- User sets up the counter according to his/her specific requirements then leaves system in automatic mode to inspect and report on the precision of fastening the screws.
- Suitable for production lines, this counter effectively counts, controls, and reports back on the fastening operation; an additional subunit can be provided that allows external control/reporting via a PLC interface.
- Automatic learning can be used to assist the user in setting up the time ranges used to identify good and bad fastening times.
- Two-color housing, ergonomic design, easy to grip.
- Torque Accuracy $\pm 3\%$

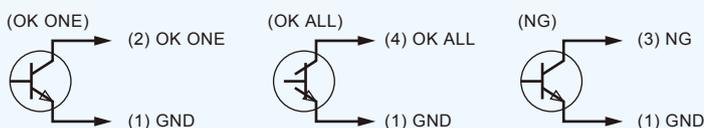

Can be ordered with an ESD (Electrostatic discharge) housing with a grounded bit unit for circuit board assembly.

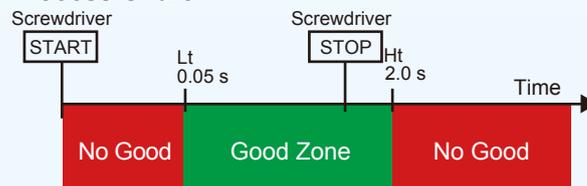

Specifications:

Function	Definition
1) Slow Start Function (For EA-BD2, EA-BD4)	Set to on or off
2) Slow Start Time Range (For EA-BD2, EA-BD4)	0 - 9.9 seconds
3) Slow Start Speed Setting (For EA-BD2, EA-BD4)	30 - 100% of screwdriver RPM
4) Count Function	Sets count up or count down
5) Count Range	1 - 99
6) Screw Time Window Min Acceptable Time	0.00 - 9.90 sec (0.01 increments)
7) Screw Time Window Max Acceptable Time	0.0 - 9.9 secs (0.1 increments)
8) Disable Screwdriver on no-good signal	Turns screwdriver off on bad torque signal
9) Reverse screw action	Determines counting action when a screw is reversed
10) Batch Jobs	1 - 5 jobs can be setup
11) Keypad Locked	Keypad can be locked so end user can not change settings

Output signal (open collector): OK ONE, OK ALL, NG

BRUSHLESS POWER SUPPLY Integrated With Screw Counting

PLC Signal Input /Output function for control screwdriver:

External inputs : Forward/Reverse/Disable/Confirm/Sensor/Clear

External outputs : OK/NG/OK ALL

Model No.	SP-BC32HL101T/C6 (V3.0)	SP-BC40HL501T/C6 (V3.0)	SP-BC40HL801T/C6 (V3.0)
Suitable Model (High speed models are available)	EA-BN203~EA-BN419	EA-BN203~EA-BN650 EA-BTK620~EA-BTK650	EA-BK760~EA-BAK9250 EA-BTN960~EA-BAN9500
Input Voltage	AC 100-240V 50/60HZ	AC 100-240V 50/60HZ	115V/50HZ, 230V/60HZ
Output Voltage	DC 32V; 24V	DC 40V; 32V; 24V	DC 40V; 32V; 24V
Output Watt	60W	220W	360W
Count		1-99	
Count method		Count-up/Count-down	
Work with Sensor		ON / OFF	
GATE Sensor		ON (2 Sensor) / OFF (1 Sensor)	
Slow-start time adjustable		0.1~9.9 seconds	
Slow-start speed adjustable		LO: 100%, L1-L9 Rated Speed 35-85%	
Running Time limit-LO		0.0-9.9 seconds	
Running Time limit-HI		0.0-9.9 seconds	
NG alarm		On / Off / FF / EF with LED and buzzer	
OK alarm		On / Off / FF / EF with LED and buzzer	
Auto ZERO		ON/OFF	
External inputs		Forward / Reverse / Disable / Confirm / Sensor / Clear	
External outputs		OK / NG / OK ALL	
Screwdriver Control		SPEED:HI / LO : SLOW START	
Outside Dimensions	200 x 130x 100(mm)		247 x 130 x 100(mm)

Specifications:

Function	Definition
1) Slow Start Function	Set to on or off
2) Slow Start Time Range	0 - 9.9 seconds
3) Slow Start Speed Setting	30 - 100% of screwdriver RPM
4) Count Function	Sets count up or count down
5) Count Range	1 - 99
6) Screw Time Window Min Acceptable Time	0.00 - 9.90 sec (0.01 increments)
7) Screw Time Window Max Acceptable Time	0.0 - 9.9 secs (0.1 increments)
8) Disable Screwdriver on no-good signal	Turns screwdriver off on bad torque signal
9) Reverse screw action	Determines counting action when a screw is reversed
10) Batch Jobs	1 - 5 jobs can be setup
11) Keypad Locked	Keypad can be locked so end user can not change settings

Input/Outputs:

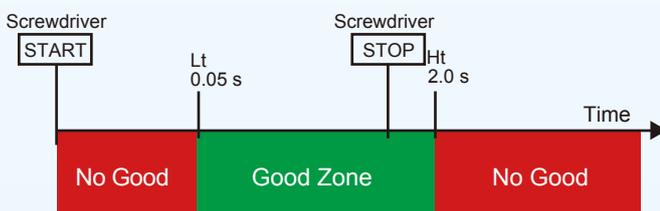

Inputs (Dry Contacts):

Remotely Start Screwdriver in Forward
Remotely Start Screwdriver in Reverse
Remotely Enable/Disable Screwdriver

Outputs (Relay):

Screwdriver Started
Screwdriver Running
Screwdriver's Clutch Engaged
Screwdriver in Reverse

AC ELECTRIC SCREWDRIVER DIRECT PLUG IN

Low Torque Full Auto Shut-off

■ Torque Range 0.15~1.86 N.m

Feature

- Lever or Push Start.
- Automatic shut-off clutch.
- Torque Accuracy $\pm 3\%$.
- Reverse/Forward
- Direct Plug-In.
- Excellent for general machine screws.
- RPM Range: 1000 ~ 2000
- Easy to operate.

Meet RoHS standard, Without ETL/CE certificate.

AUXILIARY TORQUE ARM

Feature

- Absorbs all counterforce produced by the assembly tool, reducing operator fatigue.
- Allows operator to effortlessly position tool at any location and counteracts tool's weight.
- Easy to assemble.

EAA-AUXA-500
EAA-AUXA
EAA-AUX1A
EAA-AUX1A-B

90° adaptor

Allows the operator to adjust the angle of the tool in accordance with the workpiece.

With extra 90° adaptor

EAA-AUX-500
EAA-AUX
EAA-AUX7
EAA-AUX1
EAA-AUX1-B

Fasten the workpiece in vertical.

TELESCOPIC TORQUE ARM

Features

- Eliminates torque reaction and removes weight of assembly tool from operator's arm and back.
- Easy to install on the workbench, wall, trolley or production line.
- Can be used with both air or electric torque tools.
- Best if used with a spring balancer (page 23).
- The arm collapses like a telescope providing smooth tool placement.
- Attachment clamp is free to move 360 degrees (see below pictures below).
- Standard tool balancer should be used to hang the tool while using this arm.
- Max torque capacity 50 Nm.
- Max reach is 120 cm; minimum reach is 43 cm.

SIGNAL CONTROLLER For Brushless Screwdrivers

Features

- Slow Start Time Adjustment (0 - 9.9 sec)
- Slow Start Speed Adjustment (30 - 100% RPM)
- Maximum Run Time Setting (0 - 9.9 sec)

Overview

The Signal Control connects between the screwdriver and the power supply. It allows the user to set up slow start functionality as well as I/O communication with the screwdriver.

Inputs (Dry Contacts):

Remotely Start Screwdriver in Forward
Remotely Start Screwdriver in Reverse
Remotely Enable/Disable Screwdriver

Outputs (Relay):

Screwdriver Started
Screwdriver Running
Screwdriver's Clutch Engaged
Screwdriver in Reverse

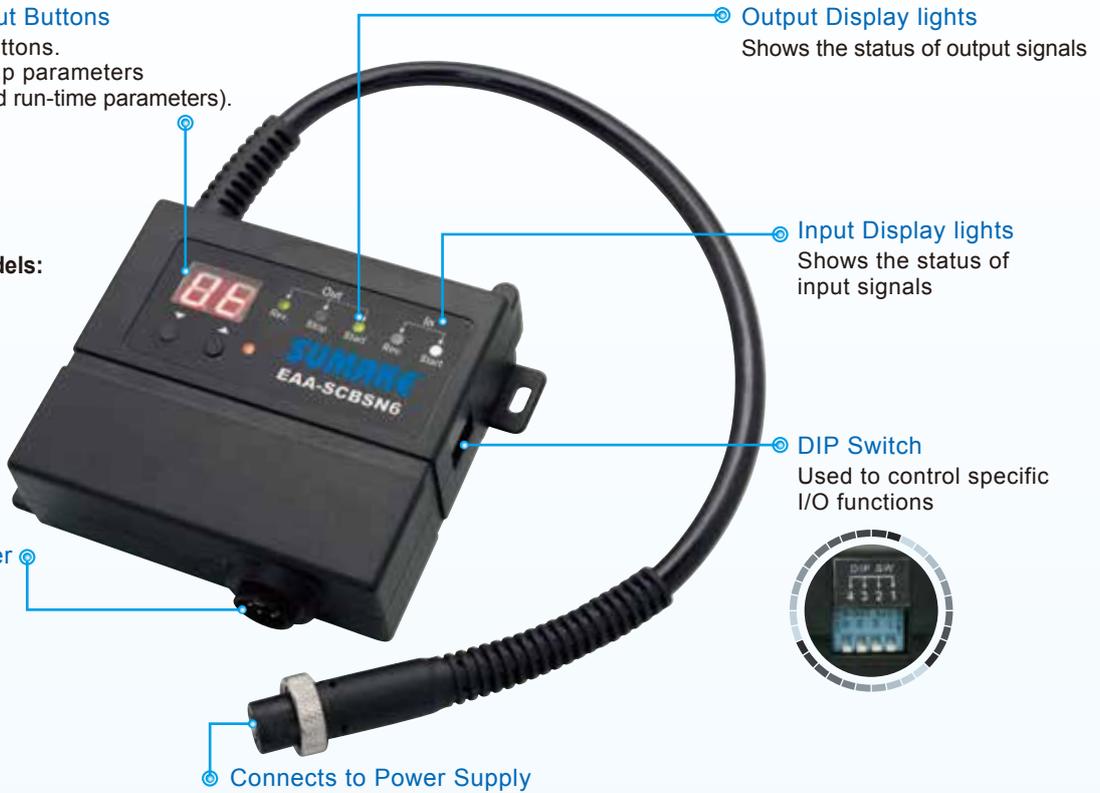

Output Display and Input Buttons

UP/DOWN input push buttons.
LED display used to setup parameters
(for example slow start and run-time parameters).

TORQUE METERS For Air / Electric Screwdrivers

Features

- Ideal for clutched torque screwdrivers.
- Comes with Torque Certification, AC Charger, Run Down Nut, and a case.
- User can set min and max test torque ranges and will be notified if torque reading falls outside of test range.
- USB 1.0 connector allows data output to computer. (TM-015A, TM-150A)
- Auto-zero option.
- Rechargeable Battery.
- Store up 800 readings.
- Available measurement units: lbs-in, kgF-cm, Nm.
- Works in both clockwise and counterclockwise.

TM-250A

TM-015A TM-150A
For Auto Shut-off

TM-S50
For Semi-Auto shut off
& Cushion Type Electric Screwdriver

Additional TM-1000 Features

- Full color LCD touch screen.
- Processes statistical calculations: CP, CPK, Sigma
- Torque graphing capabilities.
- Export data via USB or save to SD card.
- Automatic screen rotation to support Pistol Drivers.
- Provides the ability to quickly audit and verify a tool.
- Units: in.oz, in.lb, ft.lb, Nm, cNm, kgF.cm, gF.cm, kgF.m

SFR50/SF60 AUTOMATIC SCREW FEEDER

Features:

- Adjustable rail accomodates screw thread diameters from 1.0-5.0mm. A rail adjustment kit is included with the feeder to facilitate quick and easy setup.
- Adjustable vibration time, amplitude, and operation shut-off delay allows for optimal feed rates.
- Single rail accomodates all screw sizes.
- Max scew length: 19mm
- Compact and light weight.

Standard Accessories

SF60
