

## SERIES 2600 THE BIG LIFT

### APPLICATIONS

- 10' or 15' (3-4.6 m)
- 1,100 lbs (500 kg) capacity
- 2 speed winch
- Travels through doorway
- Legs fold for compact storage
- Rolls into vehicles
- Adjustable steering level handle
- Legs unlock with plunger pin and fold up for storage. Roller wheels under each leg for ease of moving lift in stored position
- Aluminum pulleys enclosed to prevent cable from coming off
- Mast hold bar for horizontal transportation.  
Hold down bar can be reshaped if bent.
- Rugged two speed which makes lifting heavy loads a snap
- Mast roller wheels help to roll lift into vehicles
- Nifty lifting hook for crane use

### ACCESSORIES

#### ADJUSTABLE STEERING HANDLE

Adjustable steering handle that pops out of way with push button.

#### OUTRIGGER LOCKING MECHANISM

Locks legs both in stored or operating position. Note: Outriggers standard on 15' model, optional on 10' model.

#### REVERSED FORK

Forks can quickly be reversed with plunger pins.

#### FORK EXTENSIONS

With push of a button, optional fork extensions extend forks extra 8" (20 cm). Extensions store in forks. Extension capacity 450 lbs (205 kg).
