

# 371ACK-(Size)

## Tech Wear Style Sheet

This Category 1 ESD coat is made of “Nylostat” fabric, which is a medium weight poly/cotton woven fabric. This garment is ideal where solder splash and heavy soil is an issue. It provides a static shield as well as excellent protection for personal clothing worn under this coat.

*(See back for dimensions & additional information)*

# 371ACK-(Size)

This former “Angelica”, traditional-style coat comes with snap closures down the front of the garment and snaps on the sleeves to constrict loose sleeves. This garment is not groundable and does not have any additional snaps on the pockets or other areas of the garment, making it a Category 1 garment. The “Reaching Hand Symbol” next to the breast pocket indicates that this garment is a tool for the prevention of static discharge.
