

COA-22-(Size)

Tech Wear Style Sheet

This Category 1 ESD Cobbler Apron is designed for comfort with a contoured open neckline, hemmed edges and drawstrings at the side. The pocket panel across the bottom front is very handy. The COA is made with our lightweight OFX-100 fabric. Surface resistivity of the fabric is 1×10^5 and the garment is guaranteed to stay below 3.5×10^7 for 100 washes or 2 years.

Part numbers by color:

White	COA-12-(Size)
Blue	COA-22(Size)
Burgundy	COA-32-(Size)
Teal	COA-82-(Size)
Black	COA-92-(Size)

Laundering Instructions:

Wash in cool or cold water with any commercially-available liquid detergent, hang dry or dry at 120°F or less. Do not use bleach, fabric softener, or iron. The carbon-suffused monofilament nylon is sensitive to heat and should not be exposed to drying heat in excess of 120°F. Wash at 90°F (Maximum) and tumble dry at low heat or hang dry. This lightweight fabric will dry very quickly and we recommend hang-drying for maximum life.
