

LOJ-20C-(Size)

Tech Wear Style Sheet

This ESD jacket is designed to ground the wearer through the garment through the ESD knit cuff and a ground cord connected at the side seam snap. This allows for hands-free movement without tethering one hand, which is required when using a wrist strap connected to a ground cord.

The light-weight fabric makes this style one of our most popular garments.

This garment meets the ANSI/ESD STM 2.1-2013, Category 3 for 100 washes or 2 years.

Country of Manufacture	USA

Standard Ground Cord
snap connected to side
seam

(See back for dimensions & additional information)

LOJ-20C-(Size)

This traditional-style jacket comes with 4mm male ground snaps on the side seams. This snap connection is for attaching a standard ground cord. Using the garment in this way eliminates the need for a wrist strap. This connection is also used for testing and/or monitoring that the garment and the wearer are grounded.
