

700 Series Receiver Heads and Assemblies

Receiver heads and receiver head assemblies are the connecting link between dispensers/controllers and Syringe barrels. They provide a safe connection for accident proof dispensing and made available with 3 feet (91 cm) or 6 feet (183 cm) of air tubing. The receiver head assembly consists of the receiver head with fitted Viton® O-ring, tubing but without male quick connector. Sold individually. Maximum operating pressure 100psi (6.9bar). An optional in-line filter (#881-000-000) is made available for applications that are not using a fitted piston. If the syringe barrel is turned upside down or dropped, the in-line filter will help to prevent fluids running back into the dispenser/controller by trapping the fluid within the filter element.

700 Series Receiver Heads & Assemblies

Data Sheet

RECEIVER HEAD PART NUMBERS

PART NUMBER	DESCRIPTION
70300RHB	700 3cc Receiver Head
70500RHB	700 5cc Receiver Head
71000RHB	700 10cc Receiver Head
73000RHB	700 30/55cc Receiver Head

RECEIVER HEAD ASSEMBLY PART NUMBERS

PART NUMBER	DESCRIPTION
70300RHR	700 3cc Receiver Head Assembly
70303RHB	700 3cc Receiver Head Assembly - 3 ft hose
70306RHB	700 3cc Receiver Head Assembly - 6 ft hose
70500RHR	700 5cc Receiver Head Assembly
70503RHB	700 5cc Receiver Head Assembly - 3 ft hose
70506RHB	700 5cc Receiver Head Assembly - 6 ft hose
71000RHR	700 10cc Receiver Head Assembly
71003RHB	700 10cc Receiver Head Assembly - 3 ft hose
71006RHB	700 10cc Receiver Head Assembly - 6 ft hose
73000RHR	700 30/55cc Receiver Head Assembly
73003RHB	700 30/55cc Receiver Head Assembly - 3 ft hose
73006RHB	700 30/55cc Receiver Head Assembly - 6 ft hose
