

TS924 Series

Foot Pedal Dispenser

TECHCON™

TS924 Series Foot Pedal Dispenser

Full pneumatic, floor mounted dispenser

The TS924 offers the best of both worlds: increased production combined with dispenser economy.

Floor mounted, under bench, design with built in pressure regulator, pressure gauge and unique fast dump 3 way air valve.

The TS924 Series is an ideal basic dispensing system for the most general applications of adhesives, sealants, coatings and compounds.

The TS924V version features a vacuum drawback to prevent very thin fluids from dripping and reduces stringing with thicker fluids.

The TS924 Series is an ideal choice of dispenser for applications where electricity is prohibited.

Output rates and shot sizes are operator controlled.

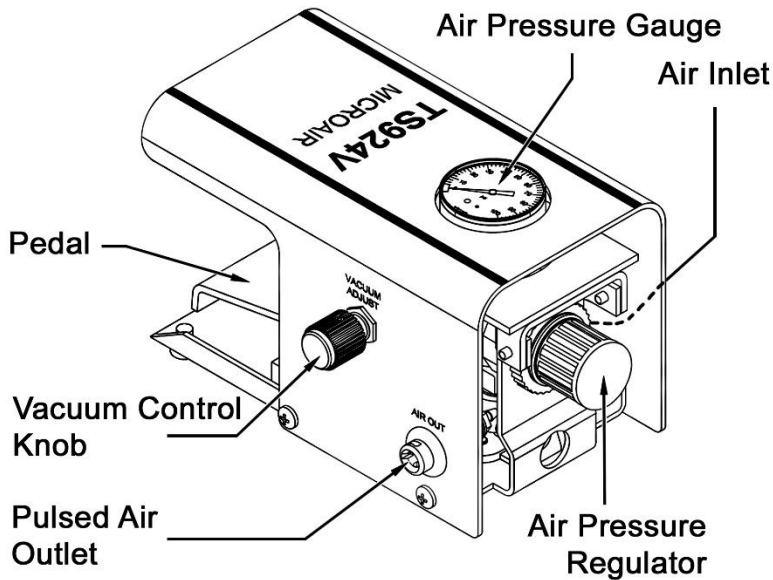

TS924 Series

Foot Pedal Dispenser

TECHCON™

IDENTIFICATION OF FEATURES

Key Features & Benefits

- Robust design
- Full pneumatic operation
- Floor mounted dispenser

Typical Applications

Dispense:

- Dots of solder paste on PCBA pads
- UV adhesive in medical device applications
- Beads of grease for lubrication applications
