

## Product Data Sheet

# 900M-T Lead-Free Soldering Iron Tip, 4C

TNP100269EA

### Type C

Features: The tip of the iron tip of the inclined part of the welding, suitable for the need for more than the amount of welding

Application: suitable for the need for more than the amount of welding, such as: welding area, thick terminals, welding large welding environment

## Product Information

- Advantage: Painted and environmentally friendly soldering iron tip has high temperature resistant, more suitable for high melting point soldering.
- Easy to Use: This inner heating soldering iron tips heat up quickly, has a long service life, easy to tin, and does not produce virtual welding.
- Practical: The welder tip is suitable for 102C/102D,933D soldering iron handles and for 936/939/938/878/898 series soldering stations.
- Application: This soldering iron tip is suitable for soldering machines that require a large amount of tin, such as large soldering area, thick terminal, large soldering pad, etc.

## Technical Details & Cleaning Data

Material Oxygen-free copper Cu

Weight About 15.5g

Iron Tip Type 4C

Tip Size 0.157"(4mm)

Color Black

Length 1.693" (43mm)

Inside Diameter 0.125" (3.2mm)

Outside Diameter 0.255" (6.5mm)

Service Life 50000 solder joints

Country of Origin China

## Packaging

Part No. TNP100269EA

## »» Techni-PRO

**Wider selection | Higher quality | Stronger value**

We've engineered a new private-label brand for world-class production supplies. You probably already know Techni-PRO products as Techni-Tool, Tec-Cut, Techni-Stat, Tec-Tuff, and other brands. Our goal was the same as it has always been: To give you more. More equipment. More supplies. More value.
