

Product Data

Heel Grounder, Day-Glow, 1Megohm Resistor, Large Cup

10069965

General Specifications

Brand	Techni-Pro
Part No.	10069965
Color	Day-Glow
Material	Rubber
Fastener	Hook & Loop
Resistor	Yes, 1Meg
Non-Marring	Yes
ESD-Safe	Yes
Numbers of Layers	2
Thickness	0.085"
Width	1-1/2"
Technical Requirements	If not otherwise specified, the grounding snap should meet or exceed the requirements of ANSI ESDS20.20 and ESDA Standard 1.1-2006.

Application

Heel grounders provide a path-to-ground for operators that must be mobile. Operators should wear two heel grounders, one for each foot and be used in conjunction with an anti-static floor or mat.

Product Information

This Techni-Pro heel grounder features a 24" multi-strand ground ribbon and a tough dual-layer rubber, cut at 1.5" wide, provides the largest surface contact, plus a rotating heel-to-sole, sole-to-heel cup design for maximum longevity.

We recommend each operator dress with two heel grounders, one for each foot. This will create a parallel path to ground when standing (two feet down) and provide additional peace of mind when walking about, as one heel grounder will always remain in contact with the floor.
