High Precision Cutters

758PL5351

Product Type: High Precision Cutters

Made in: Italy

Description: The 5351 is a high precision cutter belonging to the large tapered cutter family. This type of geometry and head dimensions offer an advantage to support the cut. The flush cutting edge is suitable to perform clean cuts with some tolerances. The 5351 is equipped with an ESD Ergo-tek handle which allows an excellent grip, suitable to environments and to components susceptible to electrostatic discharges. The blades are hardened to 67HRC hardness.
