Product Data Sheet

Product Number: 758ST106

Model: Toe Grounder, 2 MegOhm Resistor, Black

Description:

Toe grounders provide a path-to-ground for operators that must be mobile and are used with shoes where heel grounders are impractical. Operators should wear two toe grounders, one for each foot and be used in conjunction with an anti-static floor or mat. Premium grade conductive rubber is highly abrasion and wear resistant and will not mark shoes. Includes a stretch hook and loop strap for comfort and a 10" conductive tab for connections to the body. Adjustable at heel and toe.

Picture:

Scope: This specification defines the technical requirements for toe grounders under the brand Techni-Pro. If not otherwise specified, the grounding snap should meet or exceed the requirements of ANSI ESD-S20.20.

Applications:

Toe grounders provide a path-to-ground for operators that must be mobile. Operators should wear two toe grounders, one for each foot and be used in conjunction with an anti-static floor or mat.

Closure Type	Stretch Hook & Loop
Non Marring	Yes
Resistor	Yes—2meg
Reusable	Yes
Material	Two-Layer Rubber
Color	Black
