TNP-IPA-FLX-RM

- Cleans water-based, rosin, and no-clean fluxes
- 99.8% ultra-pure Isopropyl Alcohol (IPA)
- Leaves no residue
- Medium drying for maximum cleaning time
- Plastic-safe, ESD-safe
- Highly economical

Product Information

The IPA-Based Flux Remover - IsoClean is a plastic-safe, non-corrosive, ESD-safe circuit cleaner that quickly and easily removes fluxes, pastes, light oils and grease, as well as organic residues. It is effectively used as a circuit cleaner and stencil cleaner.

IsoClean is the strongest IPA-based cleaner on the market. While most IPA-based cleaners contain up to 30% water, this cleaner contains virtually no water and is undiluted by airborne humidity. 100% volatile, it evaporates cleanly with no rinsing required.

It is safe on all materials including components, connectors, cables and elastomers.
