

SBR2M Security Camera Tester Borescope

Adds a borescope function to your security camera tester to check for cable connections behind installed equipment

Features:

- Waterproof (IP67) 8mm camera (Lens only)
- 2m cable (6.5ft)
- 6 adjustable LEDs with thumbwheel control
- Power provided by the camera tester (12V 1/2/3A) — no batteries needed
- Connection made using cables already included with your camera tester
- Utilizes the display resolution of your camera tester
- Image snapshot and Video record functions dependent on camera tester capability

Applications:

Designed for inspecting behind walls and hard-to-reach areas; checking cable connections on the back of installed equipment; Insect or rodent infestation; Anywhere you need to see underneath and behind difficult to move objects
