MODEL NUMBER: P005-003-ARD

Computer power extension cord connects devices with C13/C14 power connectors or extends your existing power connection by 3 ft.

Features

C14-to-C13 Power Cable for Network Devices That Require a Heavy-Gauge Connection This IEC-320-C14 to IEC-320-C13 cable features 14 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. This C14 male to C13 female cord can be used to connect a computer, server, monitor or drive to a UPS system or PDU or replace or upgrade the standard power cord provided by the device's manufacturer. The three-foot length helps reduce cable clutter and minimize the risk of tripping.

Color-Coded to Avoid Misidentification That Can Cause Costly Downtime This computer power extension cord features a red SJT jacket and fully molded red ends. The color-coding allows easy, fast identification in a crowded rack or workstation and helps prevent the cable from becoming inadvertently disconnected.
