MODEL NUMBER: P007-L06

Computer power cord connects a server, computer, monitor, printer or other device with a C14 inlet to an AC outlet on a PDU.

### Features

**NEMA 5-15P to C13 Power Cable for Devices That Require a Heavy-Gauge Connection** This IEC-320-C13 to NEMA 5-15P power cord features 14 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. You can use it to connect a computer, server, monitor, laser printer or drive to a PDU, UPS, surge protector or AC wall outlet. It can also replace or upgrade the standard power cord provided by the device's manufacturer. The 6-ft. (1.83 m) length allows you flexibility in placing equipment with respect to the power outlet.

**Locking C13 Connector Helps Prevent Accidental Disconnection and Expensive Downtime** Having a cable come loose accidentally can mean the loss of power and costly downtime. The locking C13 connector helps you avoid such danger, protecting critical equipment by maintaining a secure link without failure. The locking cable is also invaluable when moving equipment in a rack or removing equipment from tight areas, ensuring the power cord always stays connected.

**Lifetime Warranty** The P007-L06 is backed by a lifetime warranty, ensuring reliability and performance.
