

## Power Cord, C19 to NEMA L6-30 - Heavy-Duty, 20A, 100-250V, 12 AWG, 12 ft. (3.66 m), Black

MODEL NUMBER: **P040-012-P30**

Heavy-duty power cord supplies power to network devices that require a heavy-gauge connection, such as larger servers and switches.

### Features

**C19 to L6-30P Power Cable for Network Devices That Require a Heavy-Gauge Connection** This 12 AWG power cable is designed for servers, routers, network switches, blade server enclosures and other devices that require a heavy-gauge connection capable of managing high power levels. The fully molded C19 end connects to your device's C20 inlet, and the fully molded NEMA L6-30P plug connects to an AC power source up to 12-ft. (3.66 m) away. The 12-ft. (3.66 m) length allows you great flexibility in placing equipment with respect to the power outlet.

**Locking Connector Helps Prevent Accidental Disconnection and Expensive Downtime** Having a cable come loose accidentally can mean the loss of power and costly downtime. The locking NEMA L6-30P connector helps you avoid such danger, protecting critical equipment by maintaining a secure link without failure. The locking connector is also invaluable when moving equipment in a rack or removing equipment from tight areas, ensuring the heavy-duty power cable always stays connected.
