

Safe-IT Mounting Clamp for Medical-Grade Power Strips - Antimicrobial Protection

MODEL NUMBER: PSCLAMP2

Mounts a Tripp Lite medical-grade power strip or surge protector to an IV pole, crash cart or anywhere else needing portable power.

Features

Permanently Mounts a Power Strip or Surge Protector in Your Healthcare Facility Safely attach a medical-grade power strip or surge protector to an IV pole, hospital bed, crash cart, mobile medical workstation, hospital bed rail, crib or anywhere else needing portable power. The PSCLAMP2's drip shield protects outlets from falling liquids and other contaminants that could damage the power strip or connected equipment. A built-in cord management system keeps the power strip's cabling organized and safely out of the way when not in use to reduce tripping hazards.

Exclusive Antimicrobial Protection Fights Healthcare-Acquired Infections (HAIs) The mounting clamp is protected by a patented antimicrobial powder coating with EPA-registered and FDA-compliant silver ionic technology. The antimicrobial surface protection is 99.9 percent effective in inhibiting the growth of bacteria and reducing the risk of HAIs in hospitals and other medical environments. The coating meets the requirements of JIS Z 2801:2000, an international standard for evaluating efficacy in antimicrobial products.

Works with Nearly All Brands of Power Strip, Including Tripp Lite All necessary hardware is included for mounting the lightweight aluminum PSCLAMP2 to pole diameters from .875 inches to 1.25 inches. It not only mounts Tripp Lite's line of medical-grade power strips, but those of other brands as well, bringing power to areas where wall outlets are scarce or impractical. The clamp is designed to last within busy medical environments and stand up to heavy use.

Highlights

- Antimicrobial protection helps prevent the growth of bacteria, viruses, fungi, mold and mildew
- Durable lightweight aluminum construction designed to stand up to heavy use
- Built-in drip shield protects outlets from liquid and other contaminants
- Mounting hardware included for quick, easy installation on IV pole, crash cart or bed
- Adjustable clamp fits poles ranging in diameter from .875 in. to 1.25 in.

Applications

- Permanently mount a medical-grade power strip or surge protector to an IV pole, medical cart, mobile workstation, hospital bed or crib inside a medical facility
- Requires a tool to uninstall, meeting the latest compliance requirements

Package Includes

- (2) Mounting brackets
- (2) Retainer brackets
- (2) M6 Phillips-head screws, 12 mm
- (4) M5 Phillips-head screws, 30 mm
- Owner's manual
