

## Protect It! 10-Outlet Surge Protector, 8 ft. (2.43 m) Cord with Right-Angle Plug, 2395 Joules, Tel/DSL Protection, Black Housing

MODEL NUMBER: TLP1008TEL

Safeguard your PC, printer, scanner, router, modem and other small home electronics against dangerous surges, spikes and line noise. Built-in RJ11 jacks also protect your telephone, fax machine and modem from surges.

### Description

Perfect for your home or office workstation, the TLP1008TEL Protect It!® 10-Outlet Surge Protector features a surge protection rating of 2395 joules to defend your sensitive electronic components against even the strongest surges and spikes.

Because residential power outlets have three wires—hot line (H), neutral (N) and ground (G)—the TLP1008TEL protects all three, covering the two protection modes: full normal mode (H-N) and common mode (N-G/H-G). It also filters out electromagnetic interference (EMI) and radio frequency interference (RFI) that can disrupt your electronics and inflict hardware damage or data loss.

Your devices plug into 10 NEMA 5-15R outlets, four of which are widely spaced to accept bulky transformers without blocking adjacent outlets. Sliding safety covers block accidental contact with unused outlets. RJ11 jacks allow connection of telephone/fax/modem equipment, which is also protected from surges.

An integrated 15A circuit breaker protects all outlets and shuts down connected equipment in case of overload. Diagnostic LEDs confirm your wall outlet is properly grounded and your connected equipment is protected.

The 8-ft. (2.43 m) AC power cord allows the TLP1008TEL to reach distant outlets, while its right-angle NEMA 5-15P plug allows furniture and equipment to be placed flush against the wall to save space in your workstation. Keyhole slots incorporated into the bottom panel provide convenient wall or desk mounting options for the black plastic housing.

### Features

**2395-Joule Surge Protection for Home or Office Electronics** Protects your computer, printer, scanner, router, modem and other small home electronics against even the strongest surges and spikes  
**Recommended for any desktop, network or home electronics application requiring AC line protection**  
**Full normal mode (H-N) and common mode (N-G/H-G) line surge suppression**  
**Filters out disruptive EMI/RFI line noise that can cause equipment damage or data loss**  
**Exceeds IEEE 587 Category A and B surge suppression specifications**

**10 Outlets Accept Wide Range of Electronic Devices** 10 NEMA 5-15R AC outlets accept most computers and peripherals  
 4 widely spaced outlets accommodate bulky transformers without blocking other outlets  
 Sliding safety covers block accidental contact with unused outlets

### Highlights

- 10 NEMA 5-15R outlets, including 4 for bulky transformers
- 2395-joule surge protection rating
- Filters out threatening EMI/RFI line noise
- 15A resettable circuit breaker prevents dangerous overloads
- 8-ft. (2.43 m) AC power cord with right-angle NEMA 5-15P plug

### Package Includes

- TLP1008TEL Protect It! 10-Outlet Surge Protector, Black Housing
- RJ11 telephone cable, 6-ft. (1.83 m)
