

7-Port USB Charging Station with Quick Charge 3.0, USB-C Port, Device Storage, 5V 4A (60W) USB Charge Output

MODEL NUMBER: **U280-007-CQC-ST**

Charges and organizes up to 7 electronic devices at the same time. Storage compartment neatly organizes your excess cabling to reduce clutter when charging, and stores it out of the way when not in use. Recommended for quick-charging and storing tablets, smartphones and other mobile devices.

Description

Whether you're at home or in the office, Tripp Lite's U280-007-CQC-ST 7-Port USB Charging Station provides enough ports and power to keep your devices at 100% capacity. No more peering behind furniture to find an available outlet or unplugging one device to charge another. You can charge up to seven tablets, smartphones and other devices at the same time. The U280-007-CQC-ST doesn't require a computer, so you can take it anywhere AC power is available.

The U280-007-CQC-ST features five USB-A ports, each capable of delivering up to 5V, 2.4A, which is enough for charging even battery-intensive devices like the Apple® iPad®. A USB-C port provides up to 5V, 3A for more powerful devices. Plus, a Quick Charge 3.0 port is capable of rapid-charging compliant devices up to four times faster than normal USB charging.

In addition, this charging station doubles as a storage unit by providing space to neatly organize cabling while your devices charge. When not in use, cables can be stored in the compartment and kept out of the way. The included adjustable brackets accommodate the number and size of the devices being charged. To charge your USB devices, simply connect the five-foot power cord's NEMA 1-15P plug to an AC power outlet, and connect your devices to the available USB ports. The unit protects against overheating, overcurrent and overcharging—in fact, it stops charging as soon as your devices' batteries are at full capacity. Also, each USB-A port complies with USB Battery Charging (BC) specification v1.2. The brackets and power supply store conveniently in the charging station when not in use.
