Adds 7 external USB 3.0 ports to your computer, MacBook or Chromebook for connecting hard drives, webcams and other USB devices.

### Features

**USB 3.0 Hub Adds up to 7 USB Devices to Your Computer, MacBook or Chromebook** This 7-port USB 3.0 hub connects directly to the USB-A port on your computer, laptop, MacBook, Surface or Chromebook. It allows you to use as many as seven USB devices, such as flash drives, external hard drives, printers, barcode scanners, webcams, keyboards/mice and power meters, all at the same time. The hub is backward compatible with previous USB standards, so you can also continue using older peripherals while getting maximum performance from current devices.

**Supports SuperSpeed USB 3.0 to Ensure Fast Data Transfers and Device Charging** The hub supports USB 3.0 SuperSpeed data transfer rates up to 5 Gbps, which is 10 times faster than USB 2.0. It is especially recommended for high-bandwidth USB 3.0 devices, such as security cameras and high-resolution webcams. All seven USB-A ports support USB BC (Battery Charging) 1.2 specifications for fast-charging compatible devices at 5V 2.4A.

**Plug-and-Play Hub Comes Ready to Connect Right Away** The plug-and-play U360-007 works with Windows and Mac computers and requires no software or drivers to download and install. An external power supply with five-foot cord and NEMA 1-15P plug is included. The hub protects connected devices against overcurrent. An easy-to-see blue LED indicates the unit is providing power.

**Sleek and Slim Housing Designed for Everyday Workspace Use or Connecting on the Go** The compact unit is designed for convenient positioning within your reach, making USB ports accessible while not taking up much workspace.
