

## USB-C Flat Cable (M/M) - USB 3.2 Gen 2 (10 Gbps), 5A (100W) Rating, Thunderbolt 3 Compatible, 16 in. (40.6 cm)

MODEL NUMBER: U420-16N-G25AFL

Flat USB 3.1 Gen 2 cable connects a smartphone or other USB-C device to the USB-C port on your computer, charger or power bank.

### Features

**Flat USB-C Cable Connects 2 USB-C Devices, Including MacBooks and Smartphones** This USB-C cable (M/M) connects, for instance, a Windows laptop to a docking station, your smartphone to a wall charger, or an external hard drive to a MacBook Pro computer or tablet. The cable is compatible with any device with a USB-C or Thunderbolt 3 port.

**Transfers Data and Charges Devices at Lightning-Fast Speeds** Download a high-definition movie in less than a minute, or transfer family photos from one hard drive to another in less than five minutes. This cable supports USB 3.1 Gen 2 data transfer rates up to 10 Gbps, which is twice as fast as USB 3.1 Gen 1 and 20 times faster than USB 2.0. The Power Delivery 3.0 cable also supports up to 20V 5A (100W) for fast-charging, syncing and powering most large-capacity devices, such as MacBook Pro and Chromebook computers.

**Innovative Flat Cable Prevents Tangles, Allows Flexible Bends** Very flexible for convenient on-the-go connections, this flat 16-inch cable avoids nasty tangles in your backpack or laptop bag. Its advanced flat design allows easy rolling for tangle-free storage. Plus, it bends easily for connecting to devices in tight spaces or around obstacles.

**Reversible USB-C Connectors Attach in Either Direction** Unlike traditional USB cables that connect in only one direction, the reversible male connectors plug into a USB-C or Thunderbolt 3 port in either direction for an instant connection every time.
