

**DURABLE,  
VERSATILE AND  
RELIABLE.  
WELCOME TO  
OUR WORLD.**

There is an Urrea socket or accessory always available and ready for any challenge.

One of the most extensive lines of products with the highest quality backed by a 100-year warranty, for automotive and industrial maintenance and repair work.

The sockets that are presented in this section are called hand because they are operated by hand-held controls and manual type accessories such as ratchets, articulated handles, sliding bars and handles.

Urrea features and accessories:

- Long or short (standard) length.
- 12, 8 and 6 points.
- Measures in inches and metrics.
- Command panels of 1/4", 3/8", 1/2", 3/4" and 1" drives.

The excellent performance of the Urrea handles are due to its superior patented design.

The mouth of the sockets have a super-Drive® design that prolongs its life and does not damage the screws and nuts and bolts.

Meets National and International Standards: American and European.

GO-THROUGH SOCKET SETS WITH ACCESSORIES

# GO-THROUGH.

GREAT VERSATILITY: same socket fulfills the function of a deep or low-profile socket. Can be used indistinctly in 6 different geometries.

For working with long threaded bolts and screws, where standard socket cannot be used.

- Made of chrome vanadium steel.
- Nickel - chrome plated.
- Exceed ASME B107.110 2012 standard.
- Exceed DIN 3124 standard.
- Super Drive design reduces stress away from the fastener corners and distributing contact stresses over a large area of the socket, minimizing slippage.
