

EAN:	4013288214874	Size:	274x240x67 mm
Part number:	05023452001	Weight:	1043 g
Article number:	467/7 HF Set 1	Country of origin:	CZ
		Customs tariff number:	82054000

- T-handle screwdriver for the transmission of particularly high tightening and loosening torque
- Ergonomic 2-component handle with finger handle recesses and pleasant surface feel for very high power transmission and fatigue-free working
- Take it easy tool finder: colour coding according to profile and size
- With additional short arm for the transmission of extremely high torques due to the leverage of the long arm
- With holding function (HF) on the long arm to securely hold the screw on the tool

T-handle screwdriver: The ideal handle shape to allow high torque transmission in difficult tightening and loosening situations. The ergonomic shape of the handle fills the palm of the hand well, the fingers lie safely in the soft rounded handle recesses. The whole hand makes contact with the handle and friction losses between the hand and the handle are avoided. With holding function (HF) to securely hold the TORX® screw on the tool. Special surface treatment of the blades for high corrosion protection and an optimum fit in the screw head.

Set contents:

467 TORX® HF T-handle screwdriver with holding function, TX 10 x 100 mm

05023371001	1x	TX 10 x 100 mm
05023372001	1x	TX 15 x 100 mm
05023373001	1x	TX 20 x 100 mm
05023375001	1x	TX 25 x 100 mm
05023378001	1x	TX 30 x 200 mm
05023379001	1x	TX 40 x 200 mm
05023380001	1x	TX 45 x 200 mm

Rack for Kraftform screwdrivers, 190 x 50 mm

05134001001	2x	190 x 50 mm

Ergonomic 2-component T-handle

The ergonomically shaped 2-component T-handle with finger recesses and pleasant surface facilitates very high power transmission and fatigue-free working.

TORX® HF profile

In tight assembly or disassembly situations, for example in engine compartments, it is not possible to securely hold the screw with the hand on the screwdriver, and the screw subsequently often gets lost. Lengthy searches or the loss of the screw (with the associated danger that could bring about) are the consequence. The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that the screw is securely held on the tool!

Second arm

The additional short arm, which emerges laterally from the handle, allows the transmission of extremely high torques by using the long arm as a lever.

High torque transfer

By using the blade as an extension of your lower arm you can transfer particularly high torque.

467/7 TORX® HF Set 1 screwdriver set T-handle TORX® screwdrivers with holding function, 7 pieces
Series 400 T-Handle

Corrosion protection and fitting accuracy

Due to the special surface treatment, the blades receive a high level of corrosion protection. The optimum fitting accuracy of the screw is also guaranteed.

“Take it easy” Tool Finder

Screwdrivers with "Take it easy" tool finder: colour coding according to profile and size stamp.

With useful plastic rack

Including useful rack for well-arranged storage of the screwdrivers.
