Bits for Tamper-proof TORX PLUS® IPR Screws with Safety Pin

For recessed TORX PLUS® IPR screws with safety pin

Tough-absorbing bits

A 5-flank TORX PLUS® profile with a borehole. This drive geometry has only five flanks instead of the usual six and a borehole to protect safety screws against unauthorised unfastening. The screws cannot be turned with conventional, widely available tools.

Tough-absorbing Wera bits (Z) prevent any premature breakage of the drive tip.
